SJRA Surface Water  
Treatment Plant

105  
TEXAS

Transmission  
Line Segment T1

Each segment is divided into smaller phases, and the actual construction of each phase is scheduled to minimize local impacts. Construction is scheduled in this area for the spring of 2013 through the fall of 2014. Since construction **dates are subject to change**, we encourage you to visit our website at [www.sjra.net/grp](http://www.sjra.net/grp) for the updated schedule.

Segment T1 runs along the Lake Conroe Dam from the proposed SJRA Surface Water Facilities site to SH 105, along SH 105 from the western end of the dam to Sunshine Drive, along Sunshine Drive from SH 105 to Lake Business Drive, along Lake Business Drive from Sunshine Drive to McCaleb Road, and along McCaleb Road from Lake Business Drive to a point approximately 1,600 feet north of FM 2854.

Transmission  
Line Segment T2

To address Montgomery County's growing groundwater supply crisis and ensure reliable, long-term water supplies for our future, SJRA is constructing a water treatment plant and 55 miles of water transmission lines to deliver 30 million gallons per day of top quality, treated surface water to our community. This construction will be accomplished by a team of experienced contractors who will make every effort to minimize disruption in our neighborhoods and on local streets and thoroughfares.

Segment T2 runs along McCaleb Road from a point approximately 1,600 feet north of FM 2854, across FM 2854 and along Fish Creek Thoroughfare to a point approximately 650 feet south of the Woodforest Golf Club entrance. Segment T2 also ties into MSEC Water Plant along Fish Creek Thoroughfare near Forest Wind Circle.

Transmission  
Line Segment T3

Segment T3 runs along the Fish Creek Thoroughfare beginning from a point 650 feet south of the Wood Forest Golf Club entrance to Research Forest Drive. The route crosses Lake Creek and the FM 1488/FM 2978 roadway intersection.

## Your input is important to us...

The San Jacinto River Authority's GRP website contains information about current projects, traffic updates, and allows you to contact us with questions, comments, or concerns ([www.sjra.net/grp](http://www.sjra.net/grp)). We appreciate your assistance and cooperation in identifying any problems that may occur so that we can resolve them in a timely manner. Visit us online for more information [www.sjra.net/grp](http://www.sjra.net/grp).

There will be some unavoidable inconvenience once this massive project is underway, but it is our objective to complete the construction cost-effectively, efficiently, and with minimum inconvenience to residents and drivers.
