Traffic Control-Research Forest

As of the evening of Wednesday, October 9, 2013, the east bound lanes on Research Forest from Shadowbend to Grogans Mill will be closed. Traffic will be diverted to the west bound side where traffic will run both east and west. The major intersections will remain open to thru traffic.

In order to accelerate this area, crews may be ongoing 24 hours a day, 7 days a week. Please be aware you will notice construction lighting in areas in the work zone as well as noise.

On behalf of SJRA, we appreciate your patience and understanding as we install the water transmission lines for the Ground Water Reduction Program that will be delivering water to The Woodlands as well as areas in Conroe. For more detailed information on traffic as well as the program, please visit www.sjra.net/grp.
