SJRA Situational Update

Water line break: Research Forest and Technology Forest

The Woodlands, Texas—A major water line break has occurred in The Woodlands at Research Forest Drive and Technology Forest. San Jacinto River Authority, Montgomery County Precinct 3, and Montgomery County Constable's Office are all on site.

The Woodlands is not anticipated to have interruption of service. Please avoid the area as high water is present. The break appears to be underground and not caused by construction or other interference. There does not appear to be any damage to businesses or property.

Roads are blocked in the area. Repair contractors are on site. Please continue to check San Jacinto River Authority Facebook [@SanJacintoRiverAuthority](#) for updates.
