Meet Some of our Employees that Provide Uninterrupted Essential Services to our Community

This is Mike. Mike is a maintenance tech for our LC Division. He is checking on one of our many weather stations. Thank you Mike, for your hard work and dedication to the community.

Meet Cathy. Cathy is one of our receptionists. Thank you Cathy for your continued commitment to providing first class customer service and your endless positive attitude.

This is Michael. Michael is an IT Technician. Thank you Michael for your technological expertise and your ability to keep our systems working efficiently.

Meet Alex, Brandon J., and Brandon D. Alex and Brandon D. work in our GRP Maintenance Department and Brandon J. is part of our SCADA team. The guys are installing a steel plate to protect a GRP ground box housing fiber optic cable along the transmission system. Thank you Alex, Brandon J., and Brandon D. for delivering nonstop services for our community.

Thank you Mike, Cathy, Michael, Alex, Brandon D., and Brandon J.!

Lake Conroe continues to stay open and can provide a welcome change to staying indoors.

If visiting Lake Conroe, please continue to observe federal, state, and local COVID-19 guidelines including:

- Follow CDC recommendations on social distancing.
- Limit gatherings of people to a family unit.
- Follow recommended hygiene practices including frequent hand washing when visiting any common spaces such as

marinas, gas stations, or boat launches.

“Our highest priority is for the health and well-being of Lake Conroe visitors and businesses,” said SJRA General Manager Jace Houston. “We want people to get outside with their families and enjoy the lake. We just need people to do it in a way that keeps them safe and healthy.”

“Precinct 1 advises everyone to enjoy Lake Conroe but make sure that you are following best practices and social distancing while on the water,” said Lt. Cade Montgomery County Precinct 1 Constable’s Office. “Make sure to keep your party to family units only, wash your hands, and for more information regarding COVID-19 visit www.mctx.org.”

COVID-19 is Wreaking Havoc at Wastewater Treatment Facilities Due to an Increase of "Flushable" Products

Wastewater treatment operators across the world have had the disgusting job of dealing with products that people toss down the drain and flush down the toilet for years. Obviously some of the items are to be expected, but often times it is full of objects that really shouldn't be there. The “flushable” marketing strategy adopted by numerous manufacturers magnified that issue significantly, and it continues to get worse and worse.

Be on the look out for our **COVID-19 is Wreaking Havoc at Wastewater Treatment Facilities Due to an Increase of "Flushable" Products** article in the next installment of [Dock Line Magazine](#).

Credible Sources

During #COVID19 it is important to monitor credible sources (like the CDC, EPA, or your local office of emergency management) for accurate public health announcements.

The San Jacinto River Authority's mission is to develop, conserve, and protect the water resources of the San Jacinto River basin. Covering all or part of seven counties, the organization's jurisdiction includes the entire San Jacinto River watershed, excluding Harris County. The SJRA is one of two dozen river authorities in the State of Texas, and like other river authorities, its primary purpose is to implement long-term, regional projects related to water supply and wastewater treatment. SJRA receives no

money from the state, nor does it collect any type of taxes.

If you would like to know more about SJRA, what we do, and how we work for the community, check out our website www.sjra.net and follow us on social media [@SanJacintoRiverAuthority](#), [@SJRA_1937](#), [@sanjacintoriverauthoritysjra](#).
