

Reservoirs - Raw Water - Drinking Water - Wastewater - Flood Management

San Jacinto River Authority Latest News

Fellow water and water infrastructure professionals, join SJRA and other water leaders at the (virtual) Gulf Coast Water Conservation Symposium. The GCWCS provides water utilities and other organizations interested in water management and conservation with information to implement successful water conservation programs, effectively engage customers, and plan for the future.

Be Weather Aware

There are still several weeks left in Hurricane Season. It is very important to pay attention to the forecast, become familiar with your location in the watershed, and know where to get quick but accurate information.

For the full Weather Aware Resource Guide visit our website at <https://www.sjra.net/lakeconroe/weatherawareresourceguide2021/>.

[Know Your Watershed](#) is an interactive web-based campaign, designed to help identify your exact location in your watershed, understand the San Jacinto River basin, and recognize how water drains throughout the surrounding area.

What is the Difference between Groundwater and Surface Water?

If you follow the SJRA and its activities, a couple words you may hear often are “groundwater” and “surface water,” and you might find yourself wondering, what is the difference?

Both are H2O, and both are used to meet the drinking and other water needs of SJRA’s various customers, but both also come from very different locations, and require different processes to obtain and provide.

Be on the look out for our SJRA Fighting Invasive Plants on Lake Conroe article in the next installment of [Dock Line Magazine](#).

Tell Us How We're Doing!

SJRA values your opinions and thoughts.

We would love to hear from you on how we are doing. Please submit questions, concerns, or other feedback here.

Contact Us

The San Jacinto River Authority (SJRA) receives no money from the state, nor does it collect any type of taxes.

SJRA's mission is to develop, conserve, and protect the water resources of the San Jacinto River basin. Covering all or part of seven counties, the organization's jurisdiction includes the entire San Jacinto River watershed, excluding Harris County.

The SJRA is one of two dozen river authorities in the State of Texas, and like other river authorities, its primary purpose is to implement long-term, regional projects related to water supply and wastewater treatment.

If you would like to know more about SJRA, what we do, and how we work for the community, check out our website www.sjra.net and follow us on social media [@SanJacintoRiverAuthority](#), [@SJRA_1937](#), [@sanjacintoriverauthoritiesjra](#), [@San Jacinto River Authority](#).
