Congressman Crenshaw Secures Funding for Bear Branch Dam

This month, SJRA, Woodlands Water Agency, and The Woodlands Township welcomed Congressman Dan Crenshaw to the Bear Branch Dam for a funding announcement. This federal, local partnership will fund structural and conveyance improvements to the Bear Branch dam. Thank you, Congressman Crenshaw, for the support. Learn more about the project [here](#).

Receptions for General Manager Spear

This month, SJRA held two receptions to welcome our new General Manager, Aubrey Spear. One was held at G&A and the other at the Woodlands Division. Employees and external colleagues stopped by to meet the new General Manager and spend some time getting to know him. We are excited to have General Manager Spear be a part of the SJRA team!

Whether it's municipal, agricultural or anything in between – we protect the water you depend on. The Best Water in Texas travels through 27 miles of canals to be processed and provided to our community!

Engineers Week 2024

SJRA recognizes our Technical Services Department and all our Engineers during 2024 Engineers Week! Our team of highly skilled engineers helps serve our community with the best water in Texas!

The aquatic chemistry of lakes fluctuates throughout the year, much like nature's vibrant seasonal shifts. As leaves grow, thrive, wilt, and fall like clockwork with the seasons, Lake Conroe undergoes its own cyclical changes. The ebb and flow of its chemical composition creates a dynamic and ever-changing environment, influenced by recurring patterns of the world.

Be on the lookout for our Water Chemistry in Lake Conroe article in [Dock Line Magazine](#).

The San Jacinto River Authority (SJRA) receives no money from the state, nor does it collect any type of taxes.

SJRA's mission is to develop, conserve, and protect the water resources of the San Jacinto River basin. Covering all or part of seven counties, the organization's jurisdiction includes the entire San Jacinto River watershed, excluding Harris County. The SJRA is one of two dozen river authorities in the State of Texas, and like other river authorities, its primary purpose is to implement long-term, regional projects related to water supply and wastewater treatment.
