Grand Opening: Lake Conroe Beach Park

(Photo courtesy of Conroe/Lake Conroe Chamber)

Lake Conroe Park has reopened under a new name-- Lake Conroe Beach Park. SJRA still owns the park. However, we have leased operations of the park to a private partner named Lake Conroe Beach Park. The new operators are a community-focused, family-oriented park management team dedicated to enhancing local quality of life. They focus on safety, enjoyable experiences, community collaboration, conservation, and preserving the natural beauty of the park. The owners of the business live around the lake and have other lakeside businesses such as 1097 Watersports.

The grand reopening took place on May 24, 2025! For more information, please refer to the contact information below.

Geographic Information System (GIS) plays a major role in preserving and protecting the best water in Texas. Read our [blog](#) to learn more about Ed and the work he does with GIS to support the operational divisions of SJRA.

Groundwater vs. Surface Water

Water is essential to our daily lives, from showers and coffee makers to fire protection and public health. But how often do we stop to think about where that water comes from and how it gets to our homes?

In Montgomery County our drinking water comes from two sources, Groundwater and Surface Water. Understanding the difference between these sources—and how they are treated—is important for appreciating the value and safety of the water we use every day.

Be on the lookout for our *Groundwater vs. Surface Water* article in [Dock Line Magazine](#).

SJRA Rates and Fees to Wholesale Providers:

SJRA does not have taxing authority, nor does it receive funds from the Texas Legislature. SJRA is funded solely through contracts with its wholesale customers to provide water supply and wastewater treatment. View information on rates and fees to our wholesale customers (**SJRA does not provide retail service to individual homes and business**) on our website. Click [HERE](#).

SJRA's mission is to develop, conserve, and protect the water resources of the San Jacinto River basin. Covering all or part of seven counties, the organization's jurisdiction includes the entire San Jacinto River watershed, excluding Harris County. The SJRA is one of two dozen river authorities in the State of Texas, and like other river authorities, its primary purpose is to implement long-term, regional projects related to water supply and wastewater treatment.
