SJRA Rates and Fees to Wholesale Providers:

SJRA does not have taxing authority, nor does it receive funds from the Texas Legislature. SJRA is funded solely through contracts with its wholesale customers to provide water supply and wastewater treatment. View information on rates and fees to our wholesale customers (**SJRA does not provide retail service to individual homes and business**) on our website. Click [HERE](#).

SJRA's mission is to develop, conserve, and protect the water resources of the San Jacinto River basin. Covering all or part of seven counties, the organization's jurisdiction includes the entire San Jacinto River watershed, excluding Harris County. The SJRA is one of two dozen river authorities in the State of Texas, and like other river authorities, its primary purpose is to implement long-term, regional projects related to water supply and wastewater treatment.
